

RACING PIGEON FEEDING CALENDAR

RESTING SEASON

SEPTEMBER TO END OF OCTOBER

During this resting period a carbohydrate mix is preferable as lower energy and protein levels are required. The purpose of this is to keep the birds lean and prevent the build up of impurities in the body. Use high percentages of Wheat & Barley.

Recommended Products to use:
DEPURATIVE
WINTER ECONOMY MIX

MOULTING SEASON

NOVEMBER TO JANUARY

During this period reduce carbohydrates and increase protein until moult is completed.

Recommended Products to use:
MOULTING MIX

BREEDING SEASON

FEBRUARY TO MAY

During this period use a high protein mix.

Recommended Products to use:
BREEDING MIX
HIGH PROTEIN ECONOMY
VIP
SUPERIOR PLUS BREEDER

RACING SEASON

APRIL TO SEPTEMBER

SPRINT RACING

60 to 120 miles

Emphasis on a higher percentage of carbohydrates.

Recommended Products to use:

DEPURATIVE
SUPER WIDOWHOOD
LIGHT SPEED
SUPERIOR PLUS LOW PROTEIN
SUPERIOR PLUS OPTIMAL RACER

MIDDLE DISTANCE

120 to 300 miles

Emphasis on a higher percentage of carbohydrates and an increase in protein in racing mixes.

Recommended Products to use:

IRISH MIX
SUPER YOUNG BIRD
VIP
HIGH PROTEIN ECONOMY
DIET SUPREME
SUPERIOR PLUS LOW PROTEIN
SUPERIOR PLUS OPTIMAL RACER

LONG DISTANCE

300 to 500 miles

As distance increases we recommend using one of our extreme distance mixes.

Recommended Products to use:

IRISH RUBY
PIGEON CONDITIONER
RUBY GOLD
DIET SUPREME
SUPERIOR PLUS XPERT
SUPERIOR PLUS OPTIMAL RACER

EXTREME DISTANCE

500 to 800 miles

Increase the levels of fats and carbohydrates even further.

Recommended Products to use:

IRISH RUBY
PIGEON CONDITIONER
RUBY GOLD
SUPERIOR PLUS XPERT
SUPERIOR PLUS OPTIMAL RACER

Use **DEPURATIVE** immediately following the Pigeons return from racing. Once all toxins have been removed from the birds the desired mixes can be fed again.

For increased endurance in all races we strongly advise using **SUPERIOR PLUS XPERT**. **PIGEON CONDITIONER** is ideally used as a trapping mix to encourage birds to return after racing.
